

Hotels and accommodation

For your stay in Bari during the SENSYS Conference, we have reserved a number of hotel rooms at a discounted rate; booking will be available through the conference registration platform (opening soon). Additional hotels and B&Bs are also available independently, and we recommend using platforms such as Airbnb or Booking.com to explore further options. Please note that we have no formal agreements with these independent accommodations.

Most hotels are within walking distance, while others are easily accessible by public transportation. To determine the distance between these hotels and the conference venue, use the official Bari Public Transportation travel planner at <https://www.mycicero.it/muvt/TPWebPortal/en>

For more information on the accommodation, please contact **Federica Casulli**: federica@cicsud.it
